Provider Profile:

Therapist Name	Ms. Veronica Lynn Kelley
Credential	LCSW (Licensed Clinical Social Worker)
Provider Entity Type	Individual
Gender	Female
Address	268 W Hospitality Ln, Ste 400, San Bernardino California, 92415-0026
Phone Number	909-382-3079
Fax Number	--

NPI Number Details:

NPI Number	1902211774
Provider Enumeration Date	06/30/2014
Last Update Date	06/30/2014

Medicare Participation Status:

As per our records, **Ms. Veronica Lynn Kelley** does not participate in Medicare program. Non-participating providers are those who have not signed an agreement to accept assignment for all Medicare-covered services, but they can still choose to accept assignment for individual services. These providers are called "non-participating" providers. You might have to pay the entire charge at the time of service.

Provider's Legacy Identifiers:

There are multiple medicare related identifications for medicare providers. Medicare UPIN has been replaced by NPI and is no longer used. A PTAN is a Medicare-only number issued to providers by MACs upon enrollment to Medicare - it is also sometimes called Medicare ID or Medicare PIN. An individual provider can have more than one PTAN number but only one NPI Number while hospitals and organizations may have more than one NPI.

Social Workers

Social Worker

A social worker is a person who is qualified by a Social Work degree, and licensed, certified or registered by the state as a social worker to practice within the scope of that license. A social worker provides assistance and counseling to clients and their families who are dealing with social, emotional and environmental problems. Social work services may be rendered to individuals, families, groups, and the public.

Clinical Social Worker

A social worker who holds a master's or doctoral degree in social work from an accredited school of social work in addition to at least two years of post-master's supervised experience in a clinical setting. The social worker must be licensed, certified, or registered at the clinical level in the jurisdiction of practice. A clinical social worker provides direct services, including interventions focused on interpersonal interactions, intrapsychic dynamics, and life management issues. Clinical social work services are based on biopsychosocial perspectives. Services consist of assessment, diagnosis, treatment (including psychotherapy and counseling), client-centered advocacy, consultation, evaluation, and prevention of mental illness, emotional, or behavioral disturbances.

What is a NPI Number? : The National Provider Identifier (NPI) is a unique identification number for covered health care providers. The NPI is a 10-position, intelligence-free numeric identifier (10-digit number). This means that the numbers do not carry other information about healthcare providers, such as the state in which they live or their medical specialty. The NPI must be used in lieu of legacy provider identifiers in the HIPAA standards transactions. Covered health care providers and all health plans and health care clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA (Health Insurance Portability and Accountability Act).

Where NPI should be used? : The NPI must be used in place of legacy provider identifiers, such as a Unique Provider Identification Number (UPIN), Online Survey Certification & Reporting (OSCAR) and National Supplier Clearinghouse (NSC) in HIPAA standard transactions. There are two categories of health care providers for NPI enumeration purposes. Entity Type 1 providers are individual providers who render health care (e.g., physicians, dentists, nurses). Sole proprietors and sole proprietorships are Entity Type 1 (Individual) providers. Organization health care providers (e.g., hospitals, home health agencies, ambulance companies) are considered Entity Type 2 (Organization) providers.

Who must obtain NPI? : All health care providers who are HIPAA-covered entities, whether they are individuals (e.g., physicians, nurses, dentists, chiropractors, physical therapists, or pharmacists) or organizations (e.g., hospitals, home health agencies, clinics, nursing homes, residential treatment centers, laboratories, ambulance companies, group practices, Health Maintenance Organizations [HMOs], suppliers of durable medical equipment, pharmacies) must obtain an NPI. The NPI will be used by HIPAA-covered entities (e.g., health plans, health care clearinghouses, and certain health care providers) to identify health care providers in HIPAA standard transactions. A covered health care provider, under HIPAA, is any health care provider who transmits health information in electronic form in connection with a transaction for which the Secretary of Health and Human Services has

adopted a standard, even if the health care provider uses a business associate to do so.

General Comment

The song is very simply about war. Us and them is referring to the sides of the war. "God only knows its not what we would choose to do" is saying that he knows that both sides don't really want to be in the war. "And who knows which is which and who is who" is saying that everybody, in the end, is the same. and there is really no point in warring with each other. Some of the stuff i have said may be a tad innaccurate, but I'm only human. This is the general concept of the song, though.
